

RECOMMENDED TEXTS AND READING MATERIALS IN PREPARING FOR THE EXAM

All of the texts listed are available on this website and members receive special pricing.

1. Freight Claims in Plain English, 3rd Edition by William Augello.
2. Transportation Logistics and the Law, 2nd Edition by William Augello.
3. Transportation Q&A by Colin Barrett
4. Manager's Guide to Freight Loss & Damage Claims by Colin Barrett
5. Goods in Transit by Saul Sorkin (not available on this website)
6. Transportation & Logistics Q&A in Plain English
7. Motor Carrier Cargo Claims, 5th Edition, by John McNeil

CCP PRIMER COURSE

From time to time CCPAC offers an optional 1-day exam primer course. The course is typically offered in conjunction with national or regional claim conference hosted by a CCPAC Co-Sponsoring member. The course covers a wide range of subject matter that is typically included in the exam but it should not be considered a substitute for reading the study text. The fee for the course is \$325.

ON-LINE COURSES AND STUDY MATERIALS

There are currently no on-lines courses offered by CCPAC. CCPAC has accredited on-line and correspondence courses offered by educational institutions who are also CCPAC Co-sponsor organizations and CCP professionals. Interested parties are encouraged to seek out the various web sites of these organizations or contact Council Headquarters for more information. In the mean time, CCPAC is striving towards offering various educational courses and self-administered exams on-line through this web site. These projects are very costly to develop and will be added as funds are available or upon receipt of any special contributions made by benefactors.

WHAT ARE SOME OF THE TOPICS FOR EXAMINATION ?
