

## **RECOMMENDED TEXTS AND REFERENCE MATERIALS IN PREPARING FOR THE EXAM**

Most of the texts and reference materials listed are available on this website and members receive special pricing when logged into the Members Area and Shop at the Book Store

1. Freight Claims in Plain English, 4<sup>rd</sup> Edition by William Augello and George Pezold.
2. Transportation Logistics and the Law, 2<sup>nd</sup> Edition by William Augello.
3. Transportation Q&A by Colin Barrett
4. Manager's Guide to Freight Loss & Damage Claims by Colin Barrett
5. Goods in Transit by Saul Sorkin (not available on this website)
6. Transportation & Logistics Q&A in Plain English
7. Motor Carrier Cargo Claims (CANADA), 5<sup>th</sup> Edition, by John McNeil

## **CCP PRIMER COURSE**

From time to time CCPAC offers an optional 1-day exam primer course. The course is typically offered in conjunction with national or regional claim conference hosted by a CCPAC Co-Sponsor. The course is a fast paced review covering a wide range of subject matter that has typically been included in an exam. This class should not be considered a learning source but rather it should not be considered an opportunity for the student to determine what areas they may be deficient and is not a substitute for the study text. The fee for the course is \$400.

## **ON-LINE COURSES AND STUDY MATERIALS**

There are currently 9 on-line subjects offered by member partners through CCPAC. CCPAC has accredited the on-line courses offered. Candidates seeking to take the exam are also encouraged to seek our Sponsor member web sites for courses held around the Country or at the institutions facilities. CCPAC continues to seek out other on-line offerings of various related educational subject matter, courses and self-administered exams. Keep in mind that for CCPAC to offer these on-line are very costly to develop and will be added as funds are available or upon receipt of any special contributions made by benefactors.
